

**Day
2**

Friendly First-Aid Pack

Supplies:

Each child will need:

- plastic soap dish
- 2 wiggly eyes
- pompom
- rubber band
- variety of small first-aid items, such as travel-size hand sanitizer, adhesive bandages, antiseptic wipes, and calamine lotion
- index card

You'll also need:

- paint markers
- pens
- glue or Glue Dots

Preparation

Before kids arrive, make a sample Friendly First-Aid Pack. Determine if kids will make these kits for themselves or to give to a local charity.

When children arrive, ask:

- **If you were away from home and cut your finger, what would you do?**

Say: **Sometimes you need a little help when you scrape your knee or bump your elbow. Today we'll make little first-aid kits that you can keep with you. Who knows, you might even be able to use your first-aid kit to help a hurting friend! What a fun way to remember that Jesus gives us the power to help others. "Aha!"**

Craft Creation

1. Use paint markers to make a funny, friendly face on the top of the soap dish cover. Add wiggly eyes and a pompom nose, and then set the lid aside to dry.

2. Fill the bottom of the soap dish with first-aid items such as adhesive bandages, hand sanitizer, and antiseptic wipes.
3. Write emergency information on the index card. If the kit is for the child, include the home phone number and the phone number of a relative or close friend.
4. When the paint on the lid is dry, put the lid on the first-aid kit and use the rubber band to hold the lid in place.

Say: **Keep your Friendly First-Aid Pack handy so you can help a friend. Remember, Jesus gives us the power to help others.**

"Aha!"
